

GABRIEL LOOP FABRICS

Designed to eliminate waste

Gabriel®

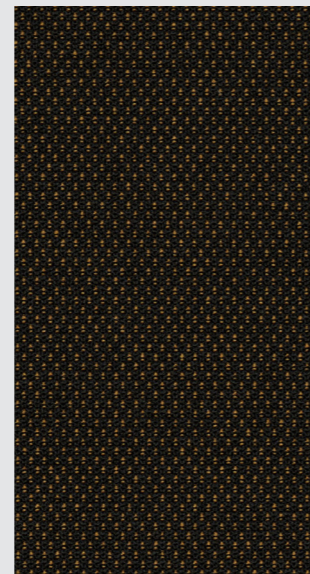

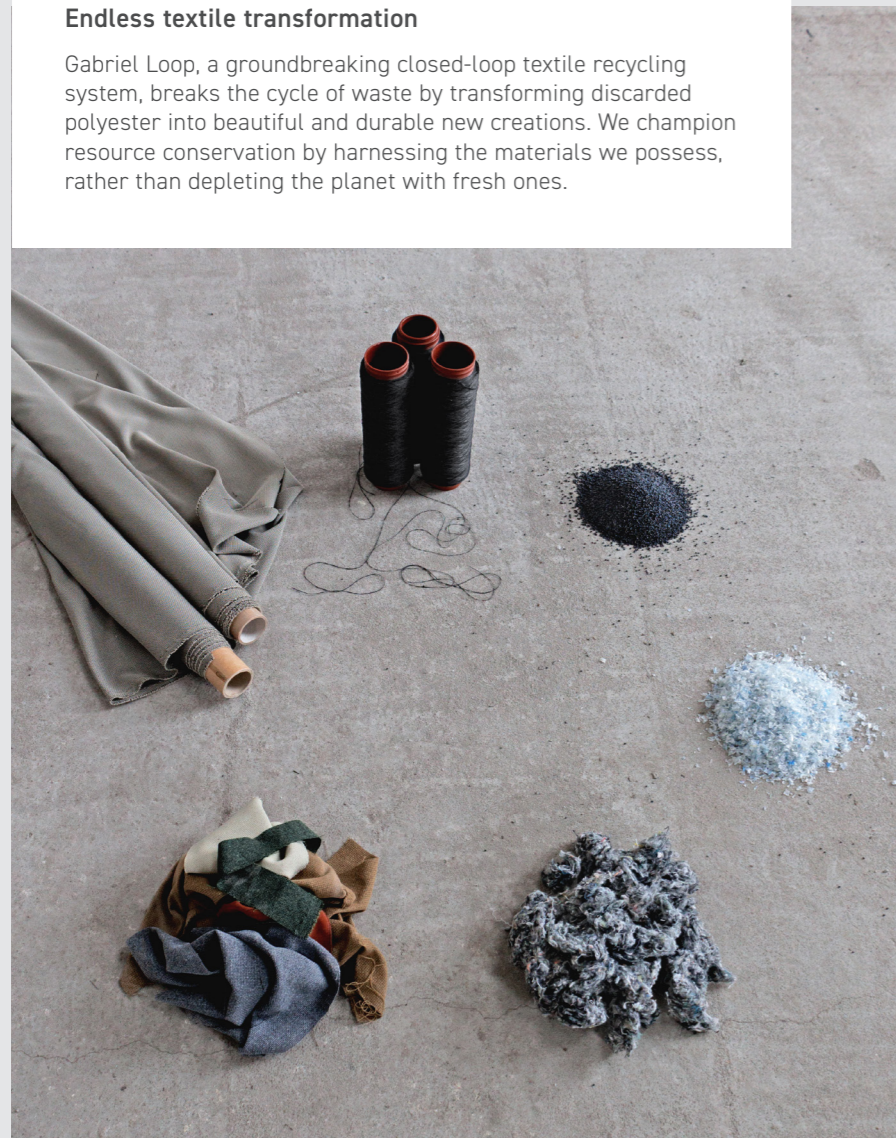

SOME SAY
THIS IS RUBBISH

Scattered on the floor

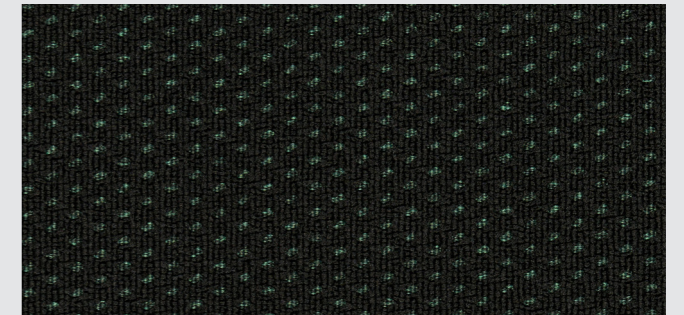

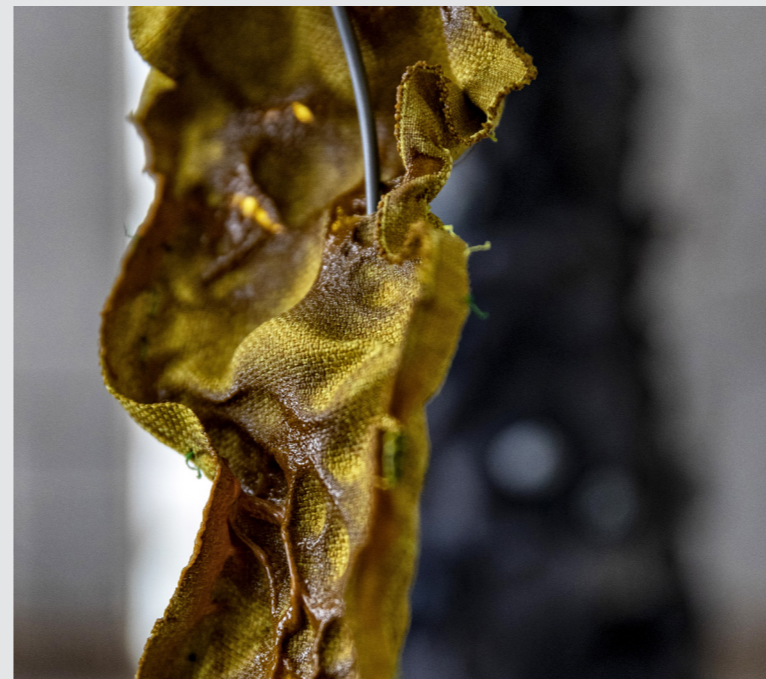

Discarded Gabriel polyester textiles find new life as the foundation for our innovative Gabriel Loop textiles. With our industrial scale take-back system, we encourage our customers to return Gabriel polyester waste, giving it a second chance to be transformed into beautiful new products.

Endless textile transformation

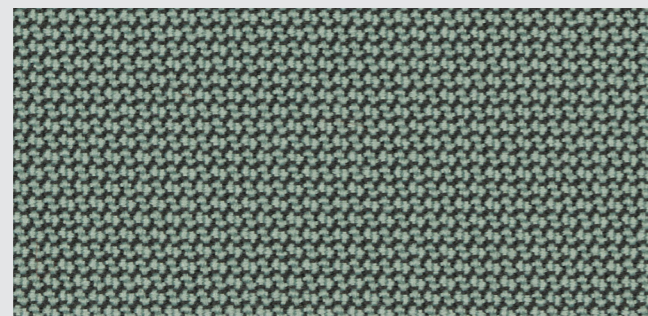

Gabriel Loop, a groundbreaking closed-loop textile recycling system, breaks the cycle of waste by transforming discarded polyester into beautiful and durable new creations. We champion resource conservation by harnessing the materials we possess, rather than depleting the planet with fresh ones.

From waste to value

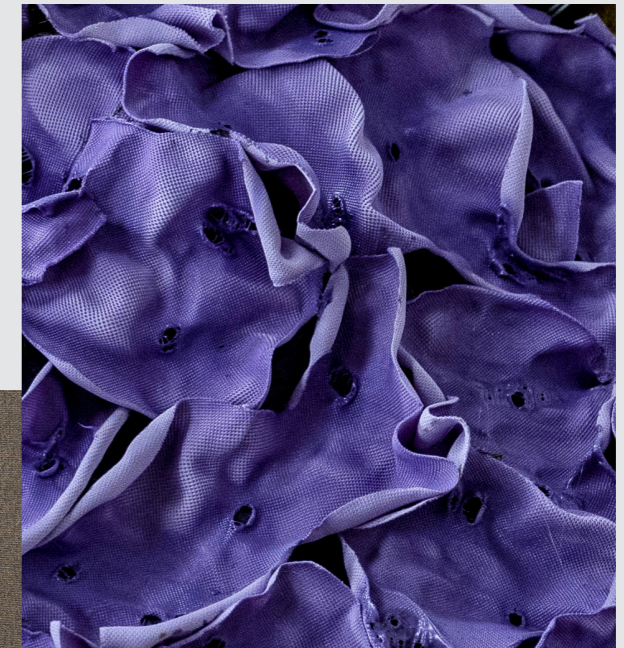

Despite the humble beginnings of Gabriel Loop textiles, we have created them with the same commitment to quality and beauty as our existing products. Allowing you to contribute to the circular transition, utilizing waste as a resource, while also adding value to your creations.

Black yarn with endless possibilities

The textile waste is recycled into the black Gabriel Loop yarn. This seemingly modest thread is the fundament of all Gabriel Loop products, sparking the imagination to endless textile creations.
